Kuota expands the Kharma family with the introduction of the "Kuota Kharma Factory Bike". The latest version, the Kharma Basic, benefits from a monocoque structure and a 3K Carbon weave. A well balanced equipment package allows customers to enter the world of quality Carbon fiber without breaking the bank. Frame and Fork satisfy UNI EN 14781 testing standards and the range of 6 sizes starting at just 47 will allow a large number of people to find a fit. EFBE Germany (efbe.de) also rates the Kharma as a "TOP PERFORMANCE" frame..

KUOTA KEBEL

Geometry	Slooping 5 cm.
Sizes	XSmall, Small, Medium, Large, XLarge, 2XLarge
Colors	Nude, Red, White, Blue
Structure	Monocoque
Weave	12K
Seatpost ø	AERO

Weight	from 1100 gr.
Rear hanger	Interchangeable
f.d. clamp ø	Alu Integrated

Kebel is the Italian expression that came naturally when Kuota's design team took it's first look at a full sized prototype. This is another performance tuned generation of frames from Kuota that maintains light weight (1.1 kg) high overall stiffness and good durability well enough for the EFBE labs in Germany (efbe.de) to rate the frame, new monocoque fork and seat post as a "TOP PERFORMANCE".

This may be the best performance for the dollar Kuota have ever produced as it also benefits from differential lamination, 1-1/8 to 1-1/4 head tube and fork, Aero profile seat tube and post increase the performance value further as a dual fit bike for a dabble in TT or Tri.
