Reservation Policy: (AMEX /VISA/MC for \$100 USD only)

Due to the large number of rental requests, it is pertinent that we secure your rental in advance. A **non-refundable** fee of \$100 USD is due at the time of booking, payable by credit card. The bike rental is due onsite, paid in cash Euros to your guides.

Rentals not paid in euros on site will be charged within 24 hours of collection of bicycle, to the credit card number provided.

You may cancel the rental up to two months prior to your arrival and forfeit only the \$100 USD fee.

Custom Getaways assumes no responsibility for any claims, damages, expenses or other financial loss to persons or property arising from the inherent risks of cycling, including theft. **All participants are required to sign a risk release statement upon receipt of the rental.**

Bikes provided will be the excellent Wilier GTR or similar

**GRANDTURISMO IN ITS
DNA INNOVATION IN ITS
ESSENCE**

All of the GranTurismo experience flows in its soul. Other than for the most extreme racers, this is the single most beloved frameset of all. In its second life, GTR inherits Granturismo's carbon fiber composite and acquires a renewed tapered head tube. Internal cable routing has been revolutionized making assembling the frame easier. Thanks to the Smooth Rear Design system, it continues to boast the same comfort where vertical vibrations are dampened without dissipating muscle power. Torsional stiffness and stability continue to be assured by the Razor Edge Design: the profiles that branch out from the seat tube and bottom bracket join near the headset. The edging that runs along the full extent of the fork makes the front end remarkably stable and receptive when pedaling out of the saddle. Its new elegant finishes are the result of Wilier Triestina's research and care for technical and aesthetic details.

Gearing is the new 11 speed Shimano 105 Gruppo with gearing suited for the mountains: Front rings: 50 x 34
Rear cassette: 11-28 – 11 Speed – optional 11-32 rear cassette. We have limited 11x32 rears.

The new 11 speed groups provide close enough gearing to ride the flats and to avoid big gaps between gears yet provides a gear ratio making it easier on the climbs than former triple cranks.
